Configuration wifi connection on a Philips Android screen

It's preferable to use a wired connection, but if that's not possible please follow the steps below:

1. Pull out the **remote-control sensor** at the back of the display.
2. To begin with the setup, use the remote to turn on the Philips display wait for it to fully power on.
3. Go to the Main Menu: press **Home** and immediately afterwards **1 8 8 8.**
4. Open **Settings** and select **Wi-Fi.**
5. Select **Enable** and configure the desired network. Select the desired network and fill in the password.
